

Magic Cap

Gregory Porter

I just cant stop thinking about you
All day long I cant do without you
Grinding beans and steaming cream
'Cause you're my magic cup
Every day in every way
'Cause you're my magic cup

You are a good time
Make me feel nice
You are a perfect fix in the morning
With sugar and spice

You give me insight
Into my mind
Looking into your black mirror
Before I pour you inside

I just cant stop thinking about you
All day long I cant do without you
You give me youth and taste of truth
'Cause you're my magic cup
Every day in every way
'Cause you're my magic cup

You are a good time
Make me feel nice
You are a perfect fix in the morning
With sugar and spice

You give me insight
Into my mind
Looking into your black mirror
Before I pour you inside

I just cant stop thinking about you
All day long I cant do without you
Grinding beans and steaming cream
'Cause you're my magic cup
Every day in every way
'Cause you're my magic cup

You are a good time
Make me feel nice
You are a perfect mix in the morning
With sugar and spice

You give me insight
Into my mind
Looking into your black mirror
Before I pour you inside

I just cant stop thinking about you
All day long I cant do without you
Grinding beans and steaming cream
'Cause you're my magic cup
Every day in every way
'Cause you're my magic cup

You give me youth and taste of truth
'Cause you're my magic cup
Every day in every way
'Cause you're my magic cup
