

# Magic Cup

Gregory Porter

I just can't stop thinking about you  
All day long I can't do without you  
Grinding beans and steaming cream  
'Cause you're my magic cup  
Every day in every way  
'Cause you're my magic cup

You are a good time  
Make me feel nice  
You are a perfect fix in the morning  
With sugar and spice

You give me insight  
Into my mind  
Looking into your black mirror  
Before I pour you inside

I just can't stop thinking about you  
All day long I can't do without you  
You give me youth and taste of truth  
'Cause you're my magic cup  
Every day in every way  
'Cause you're my magic cup

You are a good time  
Make me feel nice  
You are a perfect fix in the morning  
With sugar and spice

You give me insight  
Into my mind  
Looking into your black mirror

Before I pour you inside

I just can't stop thinking about you  
All day long I can't do without you  
Grinding beans and steaming cream  
'Cause you're my magic cup  
Every day in every way  
'Cause you're my magic cup

You are a good time  
Make me feel nice  
You are a perfect mix in the morning  
With sugar and spice

You give me insight  
Into my mind  
Looking into your black mirror  
Before I pour you inside

I just can't stop thinking about you  
All day long I can't do without you  
Grinding beans and steaming cream  
'Cause you're my magic cup  
Every day in every way

'Cause youre my magic cup

You give me youth and taste of truth

'Cause youre my magic cup

Every day in every way

'Cause youre my magic cup
