

Merry Go Round

Gregory Porter

Follow me around
Get up on my merry go round
Follow me around
Get up on my merry go round

You might choose the one that's light blue
The golden one seems like it's new
You can change your horse, but that don't change the course
Of my love

Follow me around
Get up on my merry go round
Follow me around
Get up on my merry go round

Golden one might seem nice to you
And I might be rusty, not new
You can change your horse, but that don't change the course
Of my love

Just imagine a life
Filled with wild rides and tricky games
Popcorn smells on carousels
Hot pots are roast, rollers coast all night long

Just imagine a life
Full of lots of pretty dreams
Have a toast if I may boast
We'll spin around without a scream
Here we go

Just imagine a life
Full of lots of pretty dreams
Have a toast if I may boast
We'll spin around without a scream

Follow me around
Get up on my merry go round
Follow me around
Get up on my merry go round

You can choose the golden one too
I hope that I'm good enough for you
You can change your horse, but that don't change the course
Of my love

Follow me around
Follow me around and around and around and around
And around and around and around and around
