

Grendel - Shortwired

Grendel

It's like the null on my strengths
It's like the null on my pride
It's like the sign of trig to save my mind
Switch off these toxins that haven't been raged
Or shake the blood off my hands
And leave this thought again

Strike my world and my pride
It'S like such sudden decline
And I'm searching through every day and night
These things they always try to tread on my dreams
My ship is near a quit
It's heading straight for the flat line

You can't change me
And I will never give into your will
So, you don't phase me
Not giving up for a shortwire
(2x)

Don't tell me what it's about
'Cause I've been hearing amount
Just like a choke call wrapped around my mind
And all these toxins that haven't been raged
Or shake the blood off my hands
And leave this thought again

Then strike my world and my pride
With like such sudden decline
And searching through every day and night
These things they always try to tread on my dreams
My ship is near a quit
It's heading straight for the flat line (heading straight for t
he flat line) (2x)

You can't change me
And I will never give into your will
So, you don't phase me
Not giving up for a shortwire
