

Second Chance

Grendel

Been accused again,
Which I somehow understand.
You know my background,
I've made my mistakes.
I beg you could forgive.
I've put you through hell,
But baby I believe
You know that I've changed.

If I say that I wish you'd still love me...
If I say that I wish you could forgive...
If I say that I wish you'd still love me...
If I say that I wish you could forgive...
Would it be a cliché?

They can try to lock me up
And throw away the key,
But they can't build enough space
Between you and me.
I beg you could forgive.
What else can I say?
I will be waiting here.
I dream about the day.
