

# Strangers

Grendel

Constant pressure, like rats hunted down  
Words undeeep and no compromise is found  
Vicious rumors have been spread, yet you make no compromise  
Your shallow minded hate, yet we stand our ground

I see them like strangers, like strangers in my mind  
Alienation, trying to force me down  
Don't let me drown, don't let me down  
Don't let me drown, don't let me down

Parent is a child, forever it channels forth  
Words of malign, birds fall from life  
Give me a heart, then ripping it out  
You gave me hope, then you stole my life

I see them like strangers, like strangers in my mind  
Alienation, trying to force me down  
Don't let me drown, don't let me down  
Don't let me drown, don't let me down

Living in this commotion, many states of mind  
Once again's amusement, indicate what's right  
Shutting it up, close all down  
Work so hard, you won't understand

I see them like strangers, like strangers in my mind  
Alienation, trying to beat me down  
(Don't) let me die, stop me now  
(Don't) let me die, stop me now

Living in this commotion, many states of mind  
Once again's amusement, then we tell you what's might  
Shutting it up, just close all down  
I work so hard, you won't understand

I see them like strangers, like strangers in my mind  
Alienation, trying to beat me down  
(Don't) let me die, stop me now  
(Don't) let me die, stop me now  
Now

Living in this commotion, many states of mind  
Once again's amusement, February's mind  
Shutting it up, just close all down  
I work so hard, you won't understand

I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve  
I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve

I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve  
I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve

No, leave me alone

Just leave me alone  
No, leave me alone  
Won't you leave me alone

Living in this commotion, many states of mind  
Once again's amusement, let me lose what's right  
Shutting it up, just close all down  
I work so hard, you won't understand

I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve  
I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve

I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve  
I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve

I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve  
I give you this heart, this heart of stone  
Take it from me, 'cause it's all you deserve  
Deserve...
