

Silver Lining

grentperez

I was waiting by the ocean
Staring endlessly
Into this void of separation
Of lovers and a dream
'Cause we don't talk as deep as we used to
If I wanted the weather I could just watch the news
I fear we're losing touch, but part of me still feels in love
Guess some things just can't stay

But what if you and I had passed us by?
How different our lives would be
Even if our stars don't end up aligning
There's a silver lining between
I'm just happy that I once held you close
Held you close to me

Held you close to me
I held you close to me

It's hard to say that I'll be fine on my own
I remember how you taught me turn your heart to a home
If you were still around you'd say that I'm acting strange
I just can't help but miss those days

So what if you and I had passed us by?
How different our lives would be
Even if our stars don't end up aligning
There's a silver lining between
I'm just happy that I once held you close
Held you close to me

Held you close to me
I held you close to me

Held you close to me
I held you close to me

And I hope you know that
There were more than memories made
More than memories made
'Cause all the things that you said
I still hold tight with me today
If times could change and take me back
I don't think that I would change a single thing
We parted ways, but it's time well spent
So love and peace in this life 'til the end

What if you and I had passed us by?
How different our lives would be
Even if our stars don't end up aligning
There's a silver lining
