

Don't Tell

Greta Isaac

Don't give the game away
I think they're on to us
There'll be no compromise
If they find out too much

Don't say a word, no, don't tell another
Just one little white lie won't hurt ya
Keep it a secret and you'll feel better
No one has to know

Told me to go away
Then you came crawling back
There'll be no compromise
My words are all you have
Hide the truth I'm telling you
They will know no thing
Hide the truth I'm telling you
It's worth it

Don't say a word, no, don't tell another
Just one little white lie won't hurt ya
Keep it a secret and you'll feel better
No one has to know
Don't say a word, no, don't tell another
Just one little white lie won't hurt ya
Keep it a secret and you'll feel better
No one has to know

No one has to know
Ooooooh, ooooooh, ooooooh, ooooooh, ooooooh...

Don't say a word, no, don't tell another
Just one little white lie won't hurt ya
Keep it a secret and you'll feel better
No one has to know
Don't say a word, no, don't tell another
Just one little white lie won't hurt ya
Keep it a secret and you'll feel better
No one has to know

Don't say a word, don't say a word
Don't say a word, don't say a word (no one has to know)
Don't say a word, don't say a word
Don't say a word, don't say a word (no one has to know)
Don't say a word, don't say a word
Don't say a word, don't say a word
Don't say a word, don't say a word
Don't say a word, don't say a word
