

# Always There

Greta Van Fleet

You've been waiting for your love  
when you'll discover  
She's always there  
Walk wild in her summer  
She is the drummer  
Of your beating heart

Won't you tell her that you love her  
And you'll hug her  
Most every day  
Don't you try to push or shove her  
Find another  
Or she'll walk away

She'll walk away  
She'll walk away

She's a woman in a dream  
One that makes you fall in love  
Though her face is never seen  
She is what this love is of

Stay wild in your slumber  
tumble over  
And never wait  
Dream forever in your wonder  
She'll never sunder  
Into the day

Into the day  
Into the day

She's a woman in a dream  
The one that makes you fall in love  
Though her face is never seen  
She is what this love is of

She's a woman in a dream  
The one that makes you feel in love  
Though her face is never seen, yeah  
She is what this love is of

Like a woman in a dream  
One that makes you fall in love  
Though her face is never seen  
She is what love is made of
