

## Down To The River

Greta Van Fleet

Dusty is the road  
Way down  
Way down on the other side  
Heaven ain't too far  
When you're a dead man walking  
Dead man walking down that road  
Stars are falling from the sky  
My feet are on fire  
It's a crossroad baby to where you should go

You gotta get down  
Get down to the river  
You gotta get down  
Get down to the river  
River

Bye goodbye  
Baby bye bye  
I've been running too long  
I've been running too strong  
Gotta get out  
Green don't grow  
In the snow  
That's where I gotta be  
You said to me  
I gotta get out  
Forever long  
Nobody knows  
Nobody knows  
Gotta get out  
Get out

I gotta get down  
Get down to the river  
I gotta get down  
Get down to the river  
River
