Grey Daze

I'm wasting my time
I'm wasting my breath
I'm wasting my energy
Trying to impress
What's so wrong with all that I do?
What's so wrong with everything that I do?

So no one's home
When I come on the phone
You try to avoid me
When I get you alone
What have I done?
What did I do?
All I wanted was anything from you

I won't mistreat you
All my love is around you
For so long it's always been this way
If I let you come in you can follow me

Kill my depression why I don't kill you?
I'm going insane from all the things that you do
Growing illusions crawl in your head
Growing illusions crawl in your head
You can keep on knocking but you can't come in
I'm going crazy from dreaming of you
What have you done?
What did you do?
All I wanted was something from you
