

Kill The Flies

Grey Daze

Ahh...

Well, get away, get away
Turn your head and say
That I am not enough for you
Well, I don't mind, I don't mind
'Cause it's mine for a while
So what you think you're gonna do?

Why can't I fear what I feel, what I feel
When I'm down looking back at you
Why can't I fear what I feel, what I feel
When I'm down looking back at you

Look to the sky, yeah the sky
Cause it's so damn high
And a fly's come landing in my eye
Look to the sun, yeah the sun
It's a gun, a disease
A disease will bring you to your knees

Why can't I fear what I feel, what I feel
When I'm down looking back at you
Why can't I fear what I feel, what I feel
When I'm down looking back at you

Don't matter anyway-cause all I've got to say is
Kill the flies, kill the flies, kill the flies, yeah, yeah
Kill the flies, yeah, yeah

Someday, sometime
I'm gonna find just what it is when you look at me
Kill the flies, kill the flies, cause they're stupid whores
And I keep on coming back for more

Why can't I fear what I feel, yeah I feel
When I'm down looking back at you

Why can't I fear what I feel, yeah I feel
Yeah I feel looking back at you

Don't matter anyway-cause all I've got to say is
Kill the flies, kill the flies, kill the flies, yeah, yeah
Kill the flies, yeah, yeah

Why can't I fear what I feel, what I feel
When I'm down looking back at you

Why can't I fear what I feel, yeah I feel
Yeah I feel looking back at you, yeah!

Ahh...
