

Criminal

Grey

I miss her hungry eyes
Out for love, out for blood
When she come alive
She got a snake for a tongue
I crave her every night
Feel a fire in her touch
And I can't get enough, yeah

Blurring my vision
No competition
She don't even know what she does
Let her do whatever she wants, to me
Loving so vicious
Don't need a witness
She don't even know what she does
Let her do whatever she want to me

She's so damn criminal
Swear she got a record for
Being sick and beautiful
Kiss me while she cut my throat
Crimson hands, she having fun
Kill 'em off like one by one
Face down before you know
She's so damn criminal, criminal

Smile fake sweet
Vodka cranberry and lime
The way she look at me
I regret it every time
Her lips are heavenly
Walk me through hell and back
But I can't seem to change my mind

Blurring my vision
No competition
She don't even know what she does
Let her do whatever she wants

She's so damn criminal
Swear she got a record for
Being sick and beautiful
Kiss me while she cut my throat
Crimson hands, she having fun
Kill 'em off like one by one
Face down before you know
She's so damn criminal, criminal

She's so damn criminal
Swear she got a record for
Being sick and beautiful
Kiss me while she cut my throat
Crimson hands, she having fun
Kill 'em off like one by one
Face down before you know
She's so damn criminal
