

First Time

Grey

How did we get so far and moved?
I never thought that'd be me and you, no
Wish we could see two points of view, oh
Our last stupid shit broke us right in two

Since we gave up, we've been running in the same place
Ya I miss you when I think you feel the same way
How you've been, oh
'Cause I've been thinking

I've been thinking, I've been thinking
Wanna get you back on my lips
And when you forget, I forgive
'Cause I never do things right the first time
All the words you've said, take 'em back
Didn't mean it, no, not like that
You know I never do things right the first time

You know I love to all the think
Gave us no apologies
Holding on when I shouldn't be
Should have tried and shouldn't let you end

Since we gave up, we've been running in the same place
Ya I miss you when I think you feel the same way
How you've been, oh
'Cause I've been thinking

I've been thinking, I've been thinking
Wanna get you back on my lips
And when you forget, I forgive
'Cause I never do things right the first time
All the words you've said, take 'em back
Didn't mean it, no, not like that
You know I never do things right the first time
The first time
