

# For The Night

Grey

Broke nights, all we got is us  
Nowhere we gotta be  
Headlights, just lookin' for a rush  
Chasing the in between

We get our highs without the pills, for a moment  
Breaking our limits for the thrill, like it's all we know  
Don't got a dollar to our names  
But we always find a way  
And we're never gonna stop, no

We may not always know how we're gettin' by  
But that don't mean that we're broken up inside  
One day we'll live it up in the high life  
But 'til we get there we're livin' for the night  
But 'til we get there we're livin' for the night  
But 'til we get there we're livin' for the night

Top down, just us against the wind  
No plans we gotta make  
Hot blood and fresh adrenaline  
Takin' our breath away

We get our highs without the pills, for a moment  
Breaking our limits for the thrill, like it's all we know  
Don't got a dollar to our names  
But we always find a way  
And we're never gonna stop, no

We may not always know how we're gettin' by  
But that don't mean that we're broken up inside  
One day we'll live it up in the high life  
But 'til we get there we're livin' for the night  
But 'til we get there we're livin' for the night  
But 'til we get there we're livin' for the night
