

NEVERLAND

Grey

Baby, girl, you know I think that you're amazing
The way you stick your tongue out when it's raining
Like you're straight out of a painting, hey

Grow up, promise me that we would never grow up
But it's something we can take control of
Wish that we could take control of

Daydream (We're always gettin' tired of the same thing)
Taste me

I dare you to do somethin' stupid
Don't even think about it
If you say you're down, let's prove it
Don't overthink about it
Moon Rocks in Shibuya
Singing songs, Hallelujah, yeah
Take off, I can be your Peter Pan
Yeah, and we'll never, ever, ever land

You, you got a body you could put to good use, mmm
You know there ain't nothin' that I won't do
Got be doin' moves, call it Kung Fu

Grow up, promise me that we would never grow up
But it's something we can take control of
Wish that we could take control of

Daydream (We're always gettin' tired of the same thing)
Taste me

I dare you to do somethin' stupid
Don't even think about it
If you say you're down, let's prove it
Don't overthink about it
Moon Rocks in Shibuya
Singing songs, Hallelujah, yeah
Take off, I can be your Peter Pan
Yeah, and we'll never, ever, ever land
