

# NICOTINE

Grey

You think you're over me  
But you're addicted to my love like nicotine  
Hey

We used to talk for hours but then ran away  
You took a train way outta state in the pouring rain  
I know I never sent you flowers and by the way  
I lost the chain you gave me to me that said your name

You know that I did my best  
To keep you in my, keep you in my bed, oh-oh-oh  
After all the things you said  
You're sleeping in, you're sleeping in your own regret, oh  
Know that I been on your mind  
Every single goddamn night, mmh-mmh-mmh  
There's no point denying  
When I know you're lying

You think you're over me  
But you're addicted to my love like nicotine, ay  
I gave you time to breathe  
But you're conflicted, I'm the medicine you need

Bet you still wear my jacket, you got my picture framed  
It probably kills you ever time you hear my name  
I know your friends, they asking, but you can't explain  
Why you took a train way out of state in the pouring rain

You know that I did my best  
To keep you in my, keep you in my bed, oh-oh-oh  
After all the things you said  
You're sleeping in, you're sleeping in your own regret, oh  
Know that I been on your mind  
Every single goddamn night, mmh-mmh-mmh  
There's no point denying  
When I know you're lying

You think you're over me  
But you're addicted to my love like nicotine, ay  
I gave you time to breathe  
But you're conflicted, I'm the medicine you need  
You think you're over me  
But you're addicted to my love like nicotine, ay  
I gave you time to breathe  
But you're conflicted, I'm the medicine you need
