

TOO DRUNK

Grey

Show up to my house it's a too drunk minimum
Me and all my friends it's a too drunk minimum
You know that we get twisted like Cinnabon
Up until the sun don't care what we sippin' on

Another time on another day
Another night in a different place
Feel exactly the same way
And I don't even have to think about it

In the booth colored pink and blue
One bitch two bitch like I'm Dr. Seuss
Disconnect like I'm on a zoom
And I don't even have to think about it

Take a vacation on me
We don't even gotta leave
I'll give you all that you, all that you, all that you need

Show up to my house it's a too drunk minimum
Me and all my friends it's a too drunk minimum
You know that we get twisted like Cinnabon
Up until the sun don't care what we sippin' on

Show up to my house it's a too drunk minimum
Me and all my friends it's a too drunk minimum
You know that we get twisted like Cinnabon
Up until the sun don't care what we sippin' on

Lately this shits been like the 80's
Powder my pills like pastries
I swear that last night changed me
And I don't even have to think about it

In fact, pull back the curtains, pitch black
Second we get the moon back
We'll go again like relapse
And I don't even have to think about it

Take a vacation on me
We don't even gotta leave
I'll give you all that you, all that you, all that you need

Show up to my house it's a too drunk minimum
Me and all my friends it's a too drunk minimum
You know we get twisted like Cinnabon
Up until the sun don't care what we sippin' on

Show up to my house it's a too drunk minimum
Me and all my friends it's a too drunk minimum
You know we get twisted like Cinnabon
Up until the sun don't care what we sippin' on
