

# 1,000,000 X Better

Griff

You make me feel a million times better  
When I'm with you  
You make me feel a million times better  
When I'm with you

I  
Shut the door behind me, babe  
Turn the lights out, it's been a long, long day  
And fingers crossed when I wake  
Oh, something will change

I got clouds hanging over my head  
I get irrational, crazy, upset  
But you

You pick me back up and  
You tell me it's okay  
You look in my eyes and  
Quietly you say  
"How you doing now?"  
I say  
"I think I'm better now"  
When it hurts just a little bit  
It hurts just a little  
And just when I wanna quit  
Oh, that's when you call  
"How you doing now?"  
I say  
"I think I'm better now"

You make me feel a million times better  
When I'm with you  
You make me feel a million times better  
When I'm with you

I  
I just need you to know that, babe  
'Cause I know sometimes when I'm hard to love  
Yeah, sometimes I don't always say  
Or show it that much

When I got clouds hanging over my head  
Yeah, I get irrational, crazy, upset  
But you

You pick me back up and  
You tell me it's okay  
You look in my eyes and  
Quietly you say  
"How you doing now?"  
I say  
"I think I'm better now"

When it hurts just a little bit  
It hurts just a little  
And just when I wanna quit  
Oh, that's when you call

"How you doing now?"  
I say  
"I think I'm better now"  
When it hurts just a little bit  
It hurts just a little  
And just when I wanna quit  
Oh, that's when you call  
"How you doing now?"  
I say  
"I think I'm better now"

You  
You make me feel  
A million times better  
You make me feel  
Yeah, you  
You make me feel  
A million times better  
You make me feel  
Yeah

You make me feel a million times better  
When I'm with you (yeah)  
You make me feel a million times better  
When I'm with you (yeah)
