

Anything

Griff

TV on in the background, I didn't care about that
Body bag when you're adjusting my heart in the palm of your hands
Did you realise the power you had over me when you loved like that?
Did you love?
No, and you take it back

You know if you told me to
Run, jump, throw my body right off of a highwire bridge
'Cause you'd meet me at the bottom
I would've done anything you wanted
I would've done anything you wanted
Oh, you could've told me to
Crawl down till my head's underground
Dig my elbows in with no way to get out
I would've done anything you wanted
I would've done anything you wanted

Just to know I was yours, at least for another night
Maybe I craved you so much
'Cause I knew you were never mine (La-la-la-la-la, la-la-la-la-la)
Oh, maybe it's 'cause I was young and you were the first to find
You built me up (La-la-la-la-la) just to set me alight (La-la-la-la-la)

You know if you told me to
Run, jump, throw my body right off of a highwire bridge
'Cause you'd meet me at the bottom
I would've done anything you wanted
I would've done anything you wanted
Oh, you could've told me to
Crawl down till my head's underground
Dig my elbows in with no way to get out
I would've done anything you wanted
I would've done anything you wanted (Ooh, no, no)

And I hate how much that you took away
Like my confidence was yours to take
Did you love how much you can make me stay
'Cause you knew, yeah

You knew if you told me to
Run, jump, throw my body right off of a highwire bridge
'Cause you'd meet me at the bottom
I would've done anything you wanted
I would've done anything you wanted
Oh, you could've told me to
Crawl down till my head's underground
Dig my elbows in with no way to get out (Oh)
I would've done anything you wanted (You wanted)
I would've done anything you wanted (Oh, no, no, no, no, no, no)

La-la-la-la-la, la-la-la-la-la
La-la-la-la-la, la-la-la-la-la
