

# Everlasting

Griff

They had faith more than anyone I know  
And not even they could do it  
I get scared that we'll end up like them  
I get scared that we'll end up like them  
They were stronger than we could ever know  
And not even they can make it  
Past the deep over every pavement

I get scared that we'll end up like them  
And now we're looking forward in silence  
The truth is that I don't know if I can  
Or believe in the everlasting  
Sure, I want to and I'll keep wishing  
And crossing every part of my fingers  
But who am I to think that I'm different  
Or ever live in the everlasting

I've seen pictures from decades ago  
Where everything seemed so unbroken  
All their hopes and their dreams were before them  
God, I wonder what came and destroyed them  
Maybe one day you'll ask me  
Do I think about us when we're older  
If I choke on my words, don't be hurt 'cause

I get scared that we'll end up like them  
And now we're looking forward in silence  
The truth is that I don't know if I can  
Or believe in the everlasting  
Sure, I want to and I'll keep wishing  
And crossing every part of my fingers  
But who am I to think that I'm different  
Or ever live in the everlasting?

So hold me close, don't leave tonight, don't leave

I'll keep wishing  
And crossing every part of my fingers  
But who am I to think that I'm different  
Or ever live in the everlasting?
