

# Love Is A Compass

Griff

Moments, they've been everything  
And just like magic, can make the whole world sing  
That look in your eyes, oh, the joy it brings  
When I hold you and you hold me

I know we're not, not what we used to be  
But we carry so much history  
Put up my sails and I rode the wind  
That led me here to you, I'd do it all again

I know it won't always be the same  
Feelings don't change, they never fade away  
When you're far from home, it's hard to know the way  
But it's right there inside

When you need direction  
Look to the stars  
If you don't know where you're heading  
Follow your heart  
When you're lost I will guide you  
I'm right there beside you  
Like a map of your memories

And just like a compass  
That leads the way  
We may take the long road  
But I'll never fade  
When you're lost I will guide you  
Oh, tell me you'll try to  
Remember on the darker days

Love is a compass

I see you there when I'm in my dreams  
And just like a child full of possibilities  
I can't help but smile at the wonders of the world  
'Cause I know I've been there before

I know it won't always be the same  
Feelings don't change, they never fade away  
When you're far from home, it's hard to know the way  
But it's right there inside

When you need direction  
Try close your eyes  
If you don't know where you're heading  
Just hold on tight  
When you're lost I will guide you  
'Cause I'm right here beside you  
In every memory

And just like a compass  
That leads the way  
We may take the long road  
But I'll never fade  
When you're lost I will guide you  
Oh, tell me you'll try to

Remember on the darker days
