

Walk

Griff

You won't remember, yeah
All the countless times in the dead of the night
You were with me
When no one else would be
And I'd call you whenever, yeah
You would pick up like you weren't even tired
You were with me
When no one else would be

And if I could, you know that I would
I'd give you my eyes so you can see
What I do, and maybe you'd know it too

That there's something in the way that you walk
I can't put my finger on it
It's not just the way that you talk
'Cause there's so much of you I adore
Like the way that you laugh when you fall
And how you get up regardless
Yeah, you don't even know it at all, at all

And all you gotta do now is walk
And all you gotta do now is walk

And I find it funny, eh
Even till this day, you still look away
When I try to, yeah
Compliment you on all of

The things you say
And all the made-up phrases that you hate
But you let me say them anyway
And you're so unaware, but babe

That there's something in the way that you walk
I can't put my finger on it
It's not just the way that you talk
'Cause there's so much of you I adore
Like the way that you laugh when you fall
And how you get up regardless
Yeah, you don't even know it at all, at all

And all you gotta do now is walk
And all you gotta do now is walk
All you gotta do, babe

Oh, and if I could, you know that I would (you know that I would)
I'd give you my eyes so you can see
What I do, and maybe you'd know it too, yeah
And if I could, you know that I would
Give you my eyes so you can see
What I do, and maybe you'd know it too

There's something in the way that you walk
It's not just the way that you talk
No, it's the way that you laugh when you fall
And how you get up regardless

Yeah, you don't even know it at all (you don't even know it), at all

And all you gotta do now is walk
And all you gotta do now is walk
