

# Came Here To Leave

Griffen Palmer

I love the way that you danced to the jukebox baby  
When your song comes on  
I love the way that the red wine drives you crazy  
Don't get me wrong  
I could shut the place down 'til the morning with you  
But when you give me that look baby I can't wait to

Get you out of this bar  
Wrap you up in my arms  
So why don't we get to going where we know where it leads?  
We can settle this tab  
I can call us a cab  
We can tell all our friends we got somewhere to be  
Like every other Friday night before  
We walk in and right out of that door  
Always the same routine so let's finish these drinks  
'Cause baby we know that we only came here to leave  
Yeah, only came here to leave

It always feels like the party only gets started  
When we're all alone  
So why would we waste any more time talking?  
Let me take you home  
Where I could shut the place down 'til the morning with you  
'Cause when you give me that look baby I can't wait to

Get you out of this bar  
Wrap you up in my arms  
So why don't we get to going where we know where it leads?  
We can settle this tab  
I can call us a cab  
We can tell all our friends we got somewhere to be  
Like every other Friday night before  
We walk in and right out of that door  
Always the same routine so let's finish these drinks  
'Cause baby we know that we only came here to leave  
Yeah, we only came here to leave

We only came here to slip right out of that backdoor  
It's the only reason we go out for  
So let me

Get you out of this bar  
Wrap you up in my arms  
So why don't we get to going where we know where it leads?  
We can settle this tab  
I can call us a cab  
We can tell all our friends we got somewhere to be  
Like every other Friday night before  
We walk in and right out of that door  
Always the same routine so let's finish these drinks  
'Cause baby we know that we only came here to leave  
Yeah, only came here to leave
