

We aren't fighting enough
We aren't drinking too much
We aren't screaming and shouting and slamming the doors
Something must be wrong with us
We still go out on dates
We still dance in the rain
We still sleep in the same bed and wake up together
There must be some mistake
No, I didn't grow up this way

'Cause my life with you's, one I never knew
My best example was far from the truth
And with every kiss that touches my lips
I'm closer to knowing what love really is
Memories take a while to reverse
You got me believing these songs that I've heard
I didn't know it, but baby you showed me
That I've got a lot to unlearn

Two christmases
Sounds fun but it isn't
Spending years wondering why mom and dad never tried
To fix all their differences
Oh I've kept my heart covered
But you bring out the color
Oh baby you taught me that there's more to loving
Than hating each other

'Cause my life with you's, one I never knew
My best example was far from the truth
And with every kiss that touches my lips
I'm closer to knowing what love really is
Memories take a while to reverse
You got me believing these songs that I've heard
I didn't know it, but baby you showed me
That I've got a lot to unlearn

Yeah, I'll do whatever it takes
To not make all the same mistakes

'Cause my life with you's, one I never knew
My best example was far from the truth
And with every kiss that touches my lips
I'm closer to knowing what love really is
Memories take a while to reverse
You got me believing these songs that I've heard
I didn't know it, but baby you showed me
That I've got a lot to unlearn

No, I didn't know it
But baby you showed me
That I've got a lot to unlearn
