

Never Hide

Griffin House

Tell me all about your hopes, dear
Tell me all about your fears
While the others runaway from you
I will stay right here

Love to hear you say you need me
Love to lay down by your side
Just to show you what you mean to me
When you let me come inside

All this time I've wasted
Second guessing every move I made
Tell me everything you
Keep inside and if my heart should break

Let it break
Never hide
Never hide
Never hide

Tell you all the things I love in you
Tell you everything I see
All the things that made them scared of you
The very things that set me free

All this time I've wasted
Second guessing every move I made
Tell me everything you
Keep inside and if my heart should break

Let it break
Never hide
Never hide
Never hide

As we follow down the dream
In attention, we reside
It's your light that shines on me
And I don't ever wanna hide

Never hide
Never hide
Never hide
Never hide

Never hide
Never hide
