

Straight in the Night

Griffin House

All the pretty places
That we get to go
Or the pretty faces
That I got to know
Oh, what a life we are blessed to have known
Long are the days far away from my home

Think about those choices now
Think about those breaks
Think about those chances
Never got to take

Oh, what a life I am blessed to have known
These are the days
Now they come
Now they go
Put 'em straight in the night
Put 'em straight in the night

Gonna check on out now
When I disappear
Gonna figure out now
How to love through the fear
And I'm straight in the night
And I'm straight in the night
And I'm straight in the night
And I'm straight in the night
