

## Zoal, Face Dancer

Grimes

Everybody thinks that I'm boring  
Many people think I've got no clue  
And we do with all the loving you would say  
And we do with all the things you do  
When you say my name I know you love me  
When you touch my arm I know you care  
When you look at me then I see your face  
And then I see the light, I know I'm there

Everyone thinks that I'm boring  
Everybody knows that I'm alive  
Love to do with all my heart, you had said  
Love to do with the thing, it's blue  
When you touch my arm i know I love you  
When you say my name I know you care  
If you ever had a bluetooth  
Can you see the light from there?

ooh  
ooh
