

Crazy

GrimSkunk

She beckons with the lick of her lips
The curves of this girls wave of the hips
Pulling me in tempting me with sin
Crazy shes making me spin out of control
Crazy she makes me feel like my head is going to explode (rif)
Cant stop thinking about being alone with you

Always searching for brands new thrills
In over my headwith time to kill
(Rif)
Hold me in your arms
Make me believe Im superman
Shelter me keep safe from harm
Promise me this feeling will go on and on
Never forgive never forget
(2x)
Never look back never regret
