

# Let's Start a War

GrimSkunk

Obey the rule of law, get in line  
Remove all thoughts and doubt from your mind  
Do not question what's wrong or right  
You cannot question what we decide  
Welcome to the police state  
Protect the people with guns and hate  
Protesters are anarchists  
Dissenters are terrorists  
You have no rights, no right to resist  
It will never be like before  
Welcome to the new world order  
Are you ready ?  
Let's start a war, c'mon  
What are you afraid of  
We'll profit some some more c'mon  
Its the 21st century

We'll Lock you up if you disagree  
There is no place for critical thought  
Just obey, or you'll get shot  
Welcome to the police state  
Serve the people with guns and hate  
Welcome to the police state  
Rule the people with guns and hate  
A new world war  
The new world order  
Let's start a war, c'mon  
What are you afraid of  
Let's start a war c'mon  
Show me what you're made of
