

The world is bright as can be
And all we can see is ourselves
Chasing after a dream
Caught on a mad carousel
Spinning in our own little hell
The things you hide most dear [?]
Will surely disappear
And though you feel it's real, it's all a dream
In Starlight
In Starlight
In Starlight
The things that made you believe
Have always been holding you down

Till you can't even breathe
Bury you whole in the ground
Deep where you'll never be found
Close your eyes, you'll see
There is no you and me
We are infinity, it's all a dream
Let your soul go free, it's all a dream
In Starlight
In Starlight (Let your soul go free, it's all a dream)
In Starlight
In Starlight
