Another Sun

Grinspoon

If you could recognize
What's left in me
If you could sail away
The further sea
Sometimes I get away
But all I see
The bluer sky's
A perfect sea

I remember when we thought we'd live for ever
Never thought about the love we share together
Cigarettes and alcohol have made me numb
Waiting for another for another sun

I use to be satisfied
Take what you need
Is there another way
To show me please
Sometimes to get away
But all you see
The bluer sky's
A perfect sea

I remember when we thought we'd live for ever
Never thought about the love we share together
Cigarettes and alcohol have made me numb
Waiting for another for another sun

I remember when we thought we'd live for ever
Never thought about the love we share together
Cigarettes and alcohol have made me numb
Waiting for another for another sun
