

## Another Sun

Grinspoon

If you could recognize  
What's left in me  
If you could sail away  
The further sea  
Sometimes I get away  
But all I see  
The bluer sky's  
A perfect sea

I remember when we thought we'd live for ever  
Never thought about the love we share together  
Cigarettes and alcohol have made me numb  
Waiting for another for another sun

I use to be satisfied  
Take what you need  
Is there another way  
To show me please  
Sometimes to get away  
But all you see  
The bluer sky's  
A perfect sea

I remember when we thought we'd live for ever  
Never thought about the love we share together  
Cigarettes and alcohol have made me numb  
Waiting for another for another sun

I remember when we thought we'd live for ever  
Never thought about the love we share together  
Cigarettes and alcohol have made me numb  
Waiting for another for another sun
