

# Boredom

Grinspoon

What you say  
Will go away  
Nothing celebrated for the keep sake  
I'm inclined  
To ride away and then walk alone.

Special day  
and i'm ok  
You have forgotten what i've told you  
If you find  
another way then let me know.

Like boredom when you're down town  
Misfortune and then you

Process bent  
and all inside  
Above the houses down beside  
You been licking all  
If you would ever fell apart

As you relate  
A perfect place  
Cause he does not really remind you  
Of your fate  
That awful day, that valentine

Like boredom when you're down town  
Misfortune and then..  
HEY  
Can you live another love in your vein  
SPACE  
When the heart's ready to fly away  
WAIT  
Well can you give this mother fucker a break  
SPACE, WAIT

Like boredom when you're down town  
Misfortune and then you  
I'm feeling close to clouds now  
It's like feeling close to you.
