

# Leave It

Grinspoon

You look at me as a stranger  
I look at you as a friend  
I never thought I was in danger  
Til we came up right up to the end

I never was one to play guns  
When you shot them in the park  
So maybe you'll call me later  
Sometime after dark

Bet you couldn't leave it  
You leave it  
You leave it all behind

Bet you couldn't leave it  
You leave it  
You leave it all behind

We can get complicated  
We can get out of line  
We can go out and play that  
Buried up to our necks in the vines?  
But nobody ever listens  
To stupid songs u play  
Well maybe they were wrong you won't know  
Please come back baby please don't go  
No one gets to, no one gets to say

Bet you couldn't leave it  
You leave it  
You leave it all behind

Bet you couldn't leave it  
You leave it  
You leave it all behind

Bet you couldn't leave it  
You leave it  
You leave it all behind

You might say that its over  
And maybe we'll go on  
You might live for ever  
Until nobody will ever know you're gone  
And I can't help think about  
You might be a better bride?  
If you have just left it all behind

Bet you couldn't leave it  
You leave it  
You leave it all behind

Bet you couldn't leave it  
You leave it  
You leave it all behind

Bet you couldn't leave it

You leave it  
You leave it all behind
