

Such a pity
You left today
From the city
Of broken waves
Although
you promised
I've been betrayed

For some secret
That You
needed
For some secret
She's the girl that you never liked
anyway

Kill the city
In waterways
In the shitty
Brown golden
waves
Although you promised
I feel betrayed

For some
secret
That you needed
For some secret
She's the girl that you never
liked anyway
