

# Mind Blowin

Grits

Ma soul design speaks so eloquently  
Coffee so defined, I know this time  
The piece of pie is in my reach, I know it's mine - so sublime  
Throwing up my soldier sign before we find the pit and coldest kind of sit  
Let them know what I'm for this time  
Let alone got a cool with a mountain view, picturesque and a flow so fresh  
The best to that I can attest  
Make the rest seem so minute in stature  
Just cause 'til you fall - we got you  
This why we all get at you  
Chase them bouncing balls across the walls we all be after  
Hope is in my view  
Don't misconstrue my close to you, you  
Tragic loss to my disdain  
Sum me up 'til I hit this thing  
Had to record the flavour if my West Coast conglomerate  
Who fond of it?  
Nobody does it better, when it comes to it

Looking out my window at my ghetto street  
I gotta become a man, be what I got to be  
I gotta take care of my baby, and them got to eat  
I gotta charge ya'll, begging ain't nothing for free  
I got a will to fight and the mind to tell the truth  
I gotta kill this mic every time I'm in this booth  
I gotta win the game and get a castle for my queen  
I gotta get some change, I gotta keep my mama clean  
I gotta problem with too much of talking what you don't walk  
You frightened, infinite no biting  
Homie, don't balk  
Gotta get my grind on  
I'm in and out of time zones  
The Jones click and Grits to have your mind blown  
Broaming with these baller-like tendencies, inserting these pain killers  
Singing syringes and blowing brains, shunning fame  
Motivation to build a nation out of a fallen generation  
With these verses in reverse, against the grain, we move the vision  
Haters came in opposition  
Our decisions held a question, yet they profit off our mission  
We're disciples - there's a difference versus Christians and religion  
Reach a man - you speak his land, but lead in the truth and understanding  
My devotion's fully focused on provoking ya'll to get open to what spoken in  
these rhymes and how your life should be defined  
We keep it nice with bold flows  
Throw that Greek through the window  
Then make that sacrifice to bring it back to life  
Think twice, but never hold back the night

Ain't never saw it coming when it's hitting on, like a breeze coming through  
the window  
It's blinding the core of my retina  
People are changing, we're 'bout to be getting up our grip on life  
It's only a few who get this nice  
Who knew that it took sacrifice?  
Bring it back to life  
We be the rappers who're turning back time, showing you how to control and d  
efine

A different approach of a kind, a fresher design  
A fall of grace you find, blow you mind  
Ain't never saw it coming when it's hitting on, like a breeze coming through  
the window  
It's blinding the core of my retina  
People are changing, we're 'bout to be getting up our grip on life  
It's only a few who get this nice  
Who knew that it took sacrifice?  
Bring it back to life  
We be the rappers who're turning back time, showing you how to control and d  
efine  
A different approach of a kind, a fresher design  
A fall of grace you find, blow you mind
