Right Back

Grits

I'll always love the fact that we dare to be different,
Our gifting is evident, relevant - we got that,
Matter of fact, yeah let me write that,
Take a break so I can write it, jot down - I'll be right back,
I'll always love the fact that we dare to be different,
Our gifting is evident, relevant - we got that,
Matter of fact, you led me right there,
Take a break so I can write it, jot down - I'll be right back.

Now come along with me, a guest on a magic carpet ride,
Don't be moving slow, keep up,
We taking giant strides, and taking steps towards the depths to overcome our pride,
Living life to the fullest, yeah, we die inside,
I be together, truer guy, hear the burden,
Hurting for certain, endure the pain,
Can't let the truth die, dead as that,
Rip the shirt off my back, let the whips crack, (see it coming)
Come the season that the serious is back,
Flavour of love, Teron's ambulances favourite thug,
Influences whose behaviour is bug,
Said it just to be just, I speak freely,
Can't get with it? - Unworthy to be in my presence, so please leave me,
God made my gift and our cohesion write rhymes,
Break bread, break the folks fair make life breezy,
Pleas don't pick the skeazy, not any point of you,
Praises - I've a-coined a few,
You boy called Peazy.

(said I'll be right back)
(said I'll be right back)

I'll always love the fact that we dare to be different,
Our gifting is evident, relevant - we got that,
Matter of fact, you led me right there,
Take a break so I can write it, jot down - I'll be right back.

Yo, see, just let me get through the door,
Spread a few flows, touch a few souls,
Too much has been sown to ever leave you out, alone in the cold,
But, baby, I'm on a mission, got to do what I'm told,
I remember making the promise at the end of my rope,
In the county, facing them cases, at the end of my hope,
Back to back, burning square, seeing visions of smoke,
To myself, I kept it cool - the only way I could cope,
Surrounded by dope dealers, killers, bases and more,
Real talk - some real villains you ain't wanna provoke,
So I kept a Bible close, seeking God on the low,
Praying, asking for his forgiveness before I stop in their coat,
Now the grace in which was shown and the mercy received,
There's a difference between them other rappers, artists, and me,
The hardest in me is chained to the pain of the steel,
Got to reach them, so you got to let me go...but I be back though.

(said I'll be right back)
(said I'll be right back)

I'll always love the fact that we dare to be different,
Our gifting is evident, relevant – we got that,
Matter of fact, you led me right there,
Take a break so I can write it, jot down – I'll be right back.

(said I'll be right back)
(said I'll be right back)

I'll be right back.

(said I'll be right back)
(said I'll be right back)

I'll always love the fact that we dare to be different,
Our gifting is evident, relevant – we got that,
Matter of fact, you led me right there,
Take a break so I can write it, jot down – I'll be right back.
