

Sippin Some Tea

Grits

Get your cups up, get your cups up
What's up? What's up?
Get your cups up
Get your cups up, get your cups up
What's up? Get your cups up

Sipping some tea, really don't need a lot
Sipping some tea, favourite folk all in the spot
Ain't got a lot; thankful for the little we got
Sip some tea - is this all you got?
Sipping some tea, really don't need a lot
Sipping some tea, favourite folk all in the spot
Ain't got a lot; thankful for the little we got
Sip some tea - is this all you got?

We get together under hazardous conditions
Mama hugs the folk to gather her provision, reason for living
No substitution when it came to family meetings and greetings
We're all routine, so we 'til we got to eating
Drink of choice seemed old-
fashioned a bit, but with the right amount of sugar ya'll be asking for it
The nectar for the most elite is so prestigious than even Kelly and Regis sa
id that they need this to make it through the week
Elixir for the broken heart
No stress, undress, I front to digress
It's the beginning of a better start
Call it a southern delicacy; hospitality begins and ends with this
And what you can see: I from the dairy
Pay homage 'til I'm 1.30, bowl is sturdy
Glass of tea in my hand - you earned it
And it recouped my physical attributes, my abs and glutes
Had my falls, my "Oops" and I'm...

Sipping some tea, really don't need a lot
Sipping some tea, favourite folk all in the spot
Ain't got a lot; thankful for the little we got
Sip some tea - is this all you got?
Sipping some tea, really don't need a lot
Sipping some tea, favourite folk all in the spot
Ain't got a lot; thankful for the little we got
Sip some tea - is this all you got?

I love sitting on my back porch, sipping some tea
Throwing meat on the grill while the breeze blow easy
I live simply: to simply live and serve Christ
I'm just blessed to be here and live life
Had a couple death brushes; guess the devil tried to rush it
Didn't wanna see me come into the man I'm supposed to be
Didn't wanna see me ink it up and link with Gotee, and be the reconciliation
of my family tree
And be a husband to my wife and a father to see tell the truth: that's the m
inistry you're calling to me
Doing Grits is just a benefit for being obedient, for listening to convictio
n, hit my knees and repenting
Understand that Lordship is how you're making it live
Allow my God to dictate every intention and will, and your actions will foll
ow, in the natural sense

Ain't no needin' try and fake it when you're truly committed
And that's real when you can live with just the joy of salvation
Sip tea and just chill, thanking the Lord for breathing: that's grown-
man mindset, real man concept
Get a cup and drink up all the tea

Sipping some tea, really don't need a lot
Sipping some tea, favourite folk all in the spot
Ain't got a lot; thankful for the little we got
Sip some tea - is this all you got?
Sipping some tea, really don't need a lot
Sipping some tea, favourite folk all in the spot
Ain't got a lot; thankful for the little we got
Sip some tea - is this all you got?

Get your cups up, get your cups up
What's up? What's up?
Get your cups up
Get your cups up, get your cups up
What's up? What's up?
Get your cups up
Get your cups up, get your cups up
What's up? What's up?
Get your cups up
Get your cups up, get your cups up
What's up? What's up?
Get your cups up

(I know you)
Have some tea, (I know you)
Everything will be, (I promise you)
It's a-okay, (here, have a glass)
It's a lovely day, (I know you)
