

# Sunshine

## Grits

Bounce and shake, let me see you move  
Bounce and shake, let me see you move  
Bounce and shake, let me see you move  
Bounce and shake, let me see you move

When you wake up in the morning, (sunshine)  
Feeling Grits in my company, (sunshine)  
Down with me and I feel like...(sunshine)  
Don't ever let them steal our...(sunshine)  
Sunshine on my rainy day, (when you wake up in the morning)  
Work hard all week, now it's time to play, (feeling Grits in my company)  
You see we sheik this, what we say, (down with me and I feel like...)  
Are you gonna go my way, hey? (don't ever let them steal our...)  
Sunshine on my rainy day  
Work hard all week, now it's time to play  
You see we sheik this, what we say  
Are you gonna go my way, hey?

Adjust the bass to high levels so we can vibe  
Count to ten when the trouble go running high  
Stare in the face, catching the feeling you like  
Anywhere you be, well, it's a place that's alright  
Part of a clan, we saw the dawn of man  
And smelled the stench that's passing gas in the fan  
We got inspiration, lifting information  
Invade location with no intimidation  
Can you handle it yet: the standard we set?  
Came, ruled the place, and we humbly left  
Others try and rip when it came to grip the chrome  
Gas was a trip; couldn't stand up on your own  
I ain't one to gloat, sink, or rock the boat  
It's a provoked shot; we're go for the throat  
This my tale: done broke the third rail  
Sunshine don't fail  
Like it, oh well

When you wake up in the morning, (sunshine)  
Feeling Grits in my company, (sunshine)  
Down with me and I feel like...(sunshine)  
Don't ever let them steal our...(sunshine)  
When you wake up in the morning, (sunshine)

Sunshine on my rainy day  
Work hard all week, now it's time to play  
You see we sheik this, what we say  
Are you gonna go my way, hey?

Let the sun rays cut through the haze and great days  
And blaze great some maze and heat in the place  
Keep the faith leaking while I'm speaking this way

Seeking his face, illumination lighting the way  
Fight to stay forever on the righteous path  
I did the math, counted every cost I had - my loss was none  
Now I only crave the Son: a gift to some, curse to the ignorant ones who live  
in the dark, need of a light to spark  
The fears to part Red Sea of life and heart  
Ripped apart, signed, sealed and healed by God  
And that's my word; forget about the rest you heard  
If you're out there, let it put you back in place  
Got a problem? - don't let it crack your case  
In the blackness, throughout the space and time, let the flame burn free  
Sit in the sunshine

When you wake up in the morning, (sunshine)  
Feeling Grits in my company, (sunshine)  
Down with me and I feel like...(sunshine)  
Don't ever let them steal our...(sunshine)  
When you wake up in the morning, (sunshine)
