

## You Said

Grits

Remember when you told me it would never end  
We would be together like stimpy and ren  
Guess it was a lie  
Cause now you is dead

Spit it on a love affair  
that ofen make us lose touch  
insanity we ?? it  
try to pry it from a fool clutch  
travel down the road  
it came to forks many times  
??  
??

like spacel when mixxed  
applied to cracks and bricks  
an inataquit fix  
for a momment on it it sticks  
you were all I wanted  
adramul enough  
built a castel in my mind  
now the house is haunted  
I remain secure  
with motives I say is pure  
Its a shame we can't endure  
Cause the fame take me on tour  
trust me I know what happens  
??  
we can't wrestle life  
we gotta get it before it gets way

She was my high school sweatty  
everything I thought I needed  
hazel eyes long hair  
butter cream porterican  
but it seems I was thinkin bout the beauty of her featuers
