

Daylight

Grizfolk

I've got dirt on my jeans and holes in my pockets
And the light on my street has been flickering since it first came on
The one I see, he's a real life prophet
He's not like me, he's praying for the break of dawn

Is this the last night
For the last time
(Ain't no running when daylight's come)
Let's make it the last night
For the last time
(Ain't no running when daylight's come)

I've been up all night trying to find myself
(Ain't no running when daylight's come)
Nowhere to be found in that bottle on the shelf
(Ain't no running when daylight's come)
7 come 11, can't never tell
It's been runnin' me down, yeah, runnin' from help

Is this the last night
For the last time
(Ain't no running when daylight's come)
Let's make it the last night
For the last time
(Ain't no running when daylight's come)

Same old story, it had to be mine
Came here to tell it for the very last time

Is this the last night
For the last time
(Ain't no running when daylight's come)
Let's make it the last night
For the last time
(Ain't no running when daylight's come)

Same old story, it had to be mine
I came here to tell it for the very last time

This is the last night
For the last time
(Ain't no running when daylight's come)
Let's make it the last night
For the last time
(Ain't no running when daylight's come)
This is the last night
For the last time
(Ain't no running when daylight's come)
Let's make it the last night
For the last time
(Ain't no running when daylight's come)
