

Hurricane

Grizfolk

Are we lost 'cause we took it too far?
If what it is isn't all we are
You shut the lights out and leave me in the dark
It wasn't all supposed to fall apart

Knock me down
Over and over again
This could be the end

So we love like a hurricane
Like all we know will fade away
So we love like a hurricane
When the storm is here it's hard to tame

Close your eyes and tell me what you see
Is this real or is it all a dream?

Knock me down
Over and over again
This could be the end

So we love like a hurricane
Like all we know will fade away
So we love like a hurricane
When the storm is here it's hard to tame

So we love like a hurricane
Like all we know will fade away
So we love like a hurricane
When the storm is here it's hard to tame
