

Spoonful

Grizfolk

You gave me just a little
Just to get me by
Just a spoonful
Is never enough to hold me over
Just a little bit
Just to get me by
Just a spoonful
Is never enough to hold me over

Leavin' a wake
Leavin' a big, big scar
For good times' sake
Show me that two-step once more

Never look back
When we were wild and free
Never let go
Of a good reason to believe

You gave me just a little
Just to get me by
Just a spoonful
Is never enough to hold me over
Just a little bit
Just to get me by
Just a spoonful
Is never enough to hold me over

(Is never enough to hold me over)
(Is never enough to hold me over)

I wish you the best
It's gonna be a long, long ride
You should get some rest
Right here by my side

Never looked back
When we were wild and free
Never let go
Of a good reason to believe

You gave me just a little
Just to get me by
Just a spoonful
Is never enough to hold me over
Just a little bit
Just to get me by
Just a spoonful
Is never enough to hold me over

If the plan don't come easy
Then the pain, it won't leave me
And I don't want to fight it no more
Fight it not more

You gave me just a little
Just to get me by

Just a spoonful
Is never enough to hold me over
Just a little bit
Just to get me by
Just a spoonful
Is never enough to hold me over

You gave me just a little
Just to get me by
Just a spoonful
Is never enough to hold me over
Just a little bit
Just to get me by
Just a spoonful
Is never enough to hold me over
