

Stargazer look at the sky  
I wonder where you are tonight  
I don't know how and I don't know why  
But I know you're there, you're my spirit guide

One day our time is gonna run out  
One day we'll be left with no doubt  
I still hear you in my mind  
Telling me everything's gonna be just fine  
Everything's gonna be just fine

Stargazer look at the sky  
I wonder where you are tonight  
I don't know how and I don't know why  
But I know you're there, my spirit guide

Someday soon it'll all make sense  
I don't believe in no coincidence  
Sometimes the songs I sing don't sound right  
But I know everything is gonna be alright  
Everything is gonna be alright

Stargazer look at the sky  
I wonder where you are tonight  
I don't know how and I don't know why  
But I know you're there, you're my spirit guide
