

## The Struggle

Grizfolk

Brothers got room to talk  
Messin' round on the block  
Corner shops, stares and stops  
Mother rather not

You're young enough to say what you feel  
So say what you feel, say what you feel  
Sometimes it's all that we got  
All that we got, it's all that we got then it's gone

He turns around and sees the world he knows fall apart  
The struggle you are up against makes you what you are

Sneakin' round through the cracks  
Doubling up the stacks  
He said if God lives by the gun  
I'll show the world a little more love

You're young enough to say what you feel  
So say what you feel, say what you feel  
Sometimes it's all that we got  
All that we got, it's all that we got then it's gone

He turns around and sees the world he knows fall apart  
The struggle you are up against makes you what you are  
Don't turn around when you're alone running in the dark  
The struggle you are up against makes you what you are

He turns around and sees the world he knows fall apart  
The struggle you are up against makes you what you are  
Don't turn around when you're alone running in the dark  
The struggle you are up against makes you what you are
