

Way Back When

Grizfolk

There's always time for living,
Can we just do it again?
One more time like it once was
Way back when

You gave me something to believe in
We were the best of friends
I remember the good times
Way back when

Memories will fade
If you wanna leave I'll let you go
I'll guide you on your way
I'll be there for you, don't you know

Superheroes and villains,
When we use to pretend
We'd go wherever our minds would take us, way back when

Memories will fade
If you wanna leave I'll let you go
I'll guide you on your way
I'll be there for you, don't you know
It's a promise that I made,
Never be afraid
I know you'll be okay,
This love we have we can't outgrow

You're on your own
You're not alone
I know I'll see you again
If all good things
Come to an end
Well always have way back when

Memories will fade
If you wanna leave I'll let you go
I'll guide you on your way
I'll be there for you, don't you know
It's a promise that I made,
Never be afraid
I know you'll be okay,
This love we have we can't outgrow
