## **Paper Romance**

## **Groove Armada**

taste it in the air so sweet because they come alive my visions of the city street all of electrify

I feel your heat I never wanna let you go I rock too this beat I'm standing here to let you know

yeah you can write me a love letter but there's nothing to say don't wanna take a chance on your paper romance anyway yea you can rub it off much better if you come away

my golden heart beats for you my golden heart beats for two I feel my pain the time it takes for us to change its gonna happen anyway

I feel your heat I never wanna let you go I rock to this beat I'm standing here to let you know

yeah you can write me a love letter but there's nothing to say don't wanna take a chance on your paper romance anyway yea you can rub it off much better if you come away

yeah you can write me a love letter but there's nothing to say don't wanna take a chance on your paper romance anyway
