

Can't Get Over You

Groove Coverage

There's an everlasting storm,
blowing through the night.
I feel love,
I feel hate right by my side.

Tears like rain falling down,
don't know what to do.
I remember those days,
can't get over you.

You decided to leave,
and told me nothing but lies.
Got no reason to live,
I need you by my side.

There are so many things,
you didn't come up too.
I'm surrounded by pain,
can't get over you.

So much time passing by,
since you went away.
I felt sun, touched the spring
and saw autumns gray.

Tears like rain falling down,
don't know what to do.
I remember those days,
can't get over you.

So I'm still searching,
for a certain place to hide.
I feel love,
I feel hate,
There's no end in sight.

Most of all,
I can't wait,
To come back to you.

I'm surrounded by pain,
can't get over you.
pain, can't get over you.
