Remember the time
1989 when I grew up to see the sight
Without U
I can't breath

....

Remember the time
1989 when I grew up to see the sight
Without U
I can't breath

I look upon to see the stars
To make your way the moon and mars
I miss you
By my side

Who will live?
To all the way
If I come back to here you say
I need you in my life

All in all it's not to late
Forget the past try to create
I feeling that cant wait
If you want I know its not to late.
